DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 5 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The paragraph "receiving.....outcomes;" is a run-on sentence with no clear meaning. If a claim has more limitations than one, they should be properly separated for clarity of meaning. This paragraph has no clear meaning.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

4. Claims 1-8 rejected under 35 U.S.C. 102(b) as being anticipated by Franchi (5,770,533).

Franchi teaches a gaming table (Fig.14), a game outcome determining device (dice rolled in craps game) which is not a card game, the dice being operated by a dealer (16:61-66) and dice landing on the table, a processor (16:56-59), player console (1401) and dealer console (1402), winnings and losses being directly credited to the player directly (2:55-67). Franchi teaches using roulette, big wheel for such games (3:43-45).

Art Unit: 3712

Applicant's limitations such as "device exclusive of card game", "for a game based upon at least one direct physical interaction", "said direct physical interaction affecting" in claim 63 are intended use of the device and do not further limit the apparatus in the claim. Also "at least one physical interaction" can be broadly and reasonably interpreted as pressing a button to start the automation, where "pressing a button" would be a direct physical interaction to determine the outcome.

Pertaining to claim 5, Frachi teaches receiving a player selection on a console (1401) which are exclusively on the table (Fig.14), determining an outcome by a direct physical interaction (rolling of dice 16:61-65), crediting proceeds directly to players at their consoles (2:55-67).

Double Patenting

5. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

6. Claims 1-8 rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-8 of U.S. Patent No. 6659866.

Art Unit: 3712

Although the conflicting claims are not identical, they are not patentably distinct from each other because of they claiming broad limitations to include other games.
